# ABOUT RUSVUZ

Russian Educational and Cultural Centre RUSVUZ is a Moscow-based international education consulting company for students who wish to fulfil their educational dreams in Russia. We have been cooperating with the best Russian universities, which are worldwide recognized, on a long term basis since 1997.

RUSVUZ is an official representative of Russian universities, and we cooperate with numerous educational consultants all around the world. We provide the following services:

- Personalized consultancy on the application process, documentation, qualifications, requirements and deadlines;
- Interviewing students and parents to determine one's needs and goals;
- Providing a list of appropriate Russian universities and programs that meet student's needs and expectations;
- Defining a timeframe for overall procedures;
- Maintaining contacts with admission offices throughout the whole application process.

After one's enrollment we keep in touch with all students. Further, our consulting expertise includes cultural considerations, understanding of Russian universities, how differently institutions approach international recruiting, as well as care for students throughout the application process, obtaining student visas and transitioning to Russian universities from abroad. We offer universities which provide quality education meeting the European standards.

There are more than 500 offered degree courses available in Russian and English Medium. During the last years, we have invited more than 12 000 students to study at Russian universities. Russian Educational and Cultural Centre RUSVUZ offers all fields and universities.

We work in close cooperation with our representatives and students, giving full assistance in all questions about admission, visa and living in Russia. We guarantee **seats and visas to all our applicants**. RUSVUZ takes care about every arrived student to make everyone feel home.

**>500**  
courses

**>12 000**  
students

# WHY RUSVUZ

According to the Organization for Economic Cooperation and Development (OECD), Russia has one of the most educated populations in the world. More than half of Russians have higher education qualifications, and every year more than 200,000 students come to study at Russian Universities. Russian Cultural and Educational Centre RUSVUZ is the leader in students' recruiting. Students who arrive to study in the Russian Federation are pleased and very welcome to stay. If you are one of them, feel free to contact us to receive professional assistance on study matters.

There are many advantages of applying through Russian Cultural and Educational Centre RUSVUZ, including:

- › Assistance in choosing study fields - Medicine, IT, Economics, Engineering, Aviation, Arts and others;
- › Cooperation with a big number of universities;
- › Issuance of the Admission Letter and the Invitation Letter;
- › Study visa guidance and pre-departure guidance;
- › Registration process at the university;
- › Transparency of the fee structure (no hidden fees);
- › Support of students during stay in Russia;
- › Compliance with regulations of the Ministry of Education of Russia to provide qualified support.

## ADVANTAGES

*Our students are assisted from the initial application process to one's graduation, and RUSVUZ guarantees an individual approach to every candidate.*

# STUDY IN RUSSIA

Russia is one of the most popular countries among international students around the world. The Russian Federation is the largest country in the world, covering more than one eighth of the land area. Additionally, Russian universities are well recognized all over the world.

The quality of universities in Russia is very high, and programs available there follow the international curriculum. At the same time, the living cost in Russia is lower compared to other countries.

The Government of Russia keeps a close eye on the universities and helps in maintaining the standards of the higher education system. After completing school, foreign students can apply for a higher education institution within Russia using a High School certificate.

## APPLICATION PROCESS

For those who wish to study at a Russian university, the admission procedure is as follows:

- 1 Choice of specialization and higher education institution;
- 2 Allocating funds sufficient for the study process;
- 3 Collection and submission of required documents;
- 4 Choice of specialization and higher education institution;

**“ The process can be regulated by signed Agreements between the Russian Federation and foreign countries (for example, diplomas of secondary education are mutually recognized). ”**

# EDUCATION IN RUSSIA

## EDUCATION SYSTEM IN RUSSIA

The modern system of higher education in Russia is built according to the Bologna principle and includes a Bachelor (4 years of study), Master (2 years) and PhD (3 years) degrees. For the postgraduate level additional training is available. Also, in many universities, a Specialist degree is available, the duration of which is 5 to 6 years.

**4** Bachelor  
years

**2** Master  
years

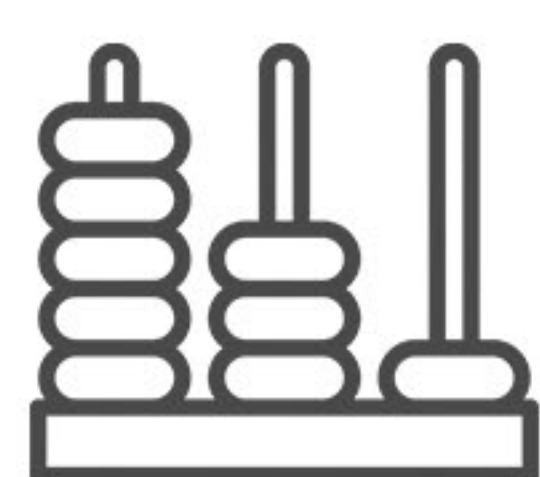

**3** PhD  
years

Russian universities offer several forms of education, specifically, daytime and evening classes. Each of these options have their own advantages. Russian universities offer a variety of educational programs in a variety of study programs. The most popular ones are considered to be Medicine, Engineering, IT and others. Many programs are available not only in Russian, but also in English medium. In addition, for applicants who do not speak Russian, the Preparatory course is available where one can learn the language, as well as specialized disciplines.

## EDUCATION SYSTEM IN RUSSIA

Every year, people from more than 150 countries come to Russia to study in world-renowned educational institutions. Considering how many foreigners study in Russia, some trends have been identified.

For example, students from the Middle East and Africa are more interested in medical and engineering areas, Europeans have a priority in social and humanitarian specialties and the study of the Russian language, while those who come from Asian countries are interested in physical, mathematical, computer and medical programs.

# ADMISSION PROCESS

Russian Cultural and Educational Center RUSVUZ makes dreams about a successful future a reality. RUSVUZ offers a high level of personal service and expertise to students who wish to be educated at the finest universities in Russia. First thing we do is provide personal consultancy about goals and fields of interest. We help to choose the right course and right university for all undergraduate, Master's and PhD programs.

RUSVUZ takes care of your admission and invitation/visa support letter from the Home Office of Russia. We guide students before arrival, pick them up at the airport and help with the transportation to the university. Moreover, other services are available:

- Assistance with immigration clearance upon arrival;
- Hostel arrangements (separate rooms for males and females);
- Medical insurance assistance;
- Medical examination upon arrival;
- Purchase of the local SIM-card (mobile service communication);
- Registration in the Visa Department;
- Assisting with the final university documentation;
- International students card, hostel card, library card and university ID;
- Bank account opening;
- Visa support during the whole period of study;
- Documents translation into Russian upon arrival;
- Documents notarization;
- Equalization of all educational certificates from the Ministry of Education and Head Equalization Office of Moscow;
- Providing with the permanent local representative who will be able to clarify the legal status relating to the student's residency at the territory of Russia;
- Assistance with the translation services (upon request);
- Assistance in the questions about the city and local area (exploring the city);
- Any other assistance upon student's request.

Russian Cultural and Educational Center RUSVUZ provides a lot of different services for students' parents and relatives who may want to visit the country and their children. Among them are the following services:

- Information about the academic progress of the student;
- Guiding in tourist visa questions;
- Reservation of hotel room(s);
- Airport reception upon arrival;
- Organizing city tours;
- Translation services;
- Other services.

Russia is a highly educated country with over half of its residents holding a university degree. Russian Cultural and Educational Center RUSVUZ provides students with comfortable studying and living conditions and helps to adapt to the country.

The Russian Federation accepts students from nearly 170 countries annually, and everyone is welcome to study there. RUSVUZ is a good chance to get your seat at the university and enjoy an amazing study experience.

## STEP 1

### APPLY AND GET THE INVITATION LETTER

To apply for studies and get the Invitation Letter, it is required to send the scanned copies of the following documents:

- Copy of International passport;
- Copy of School leaving certificate with marks/grades;
- Filled Application form;
- Copy of Bachelor's degree with marks/grades (only for PG students).

The Invitation Letter fee can be paid by a bank transfer, Western Union or MoneyGram. After the documents and payment are received, the Invitation Letter will be sent within 35-40 working days.

## STEP 2

### STUDY VISA APPLICATION

After getting the Invitation Letter, applicants should contact the nearest Embassy of Russia or Consulate. Students should apply to a Russian Embassy with the following documents:

- Original Invitation Letter;
- Original International passport (valid at least for two years);
- High School leaving certificate with the transcript (attested by the Ministry of Foreign Affairs and Russian Embassy or with the Apostille Stamp on it);
- Medical Certificate showing absence of AIDS/HIV (attested by the Ministry of Foreign Affairs).

## STEP 3

### ARRIVAL

After getting the study visa, students should inform about one's flight details with date and arrival time at least 5 days before departure date. One of our representatives will receive the student at the airport. In case the student does not inform us about the arrival, he/she will be deported back to the homeland. Students should bring the following documents along with:

- International passport with the Visa;
- Copy of the invitation letter (or original);
- Complete first-year expenses payment receipt;
- 8 Passport sized photos (3x4);
- Medical Certificate showing absence of AIDS/HIV;
- Original High school leaving certificate.

Chechen State University degree is recognized by the WHO, UNESCO, PLAB, USMLE, MCI, PMDC and other International Organizations.

## ABOUT THE UNIVERSITY

Chechen State University (also known as CSU) is a university in the city of Grozny. The University's history began on February 7, 1938, when the Grozny Teachers' Institute with a two-year course opened at the initiative of the regional committee of the party and the Council of People's Commissars of the Chechen-Ingush ASSR in Grozny. The contingent of students was 120 people. On September 1, 1938, the Institute had Philological, Historical, Physical and Mathematical faculties.

Nowadays, there are more than 500 full-time teachers at Chechen State University, including 66 doctors of science, 27 of whom have the academic title of Professor, 270 candidates of science, 102 of whom have the academic title of Associate Professor. The university has 72 departments, with the total number of full-time and part-time students being 15,458. 10 faculties and 4 institutes produce specialists in all levels of education.

**>500**  
professors  
**15,458**  
students

CSU operates in a multi-level educational system, which allows it to produce highly-qualified specialists. Studying at Chechen State University offers a pathway to promising employment opportunities and a successful career. The University is the largest one in the Republic, and it admits students on every level of education: school graduates, Bachelors, Specialists and Masters. The University provides all modern facilities and high technologies. The classrooms are equipped with interactive boards, video-conferencing technology. Students have access to extensive e-library resources, as well as Russian and international databases.

*The University management pays special attention to developing an academic mobility of staff and students and works actively on inviting prominent researchers and academic staff from other regions of Russia and abroad for joint research and work.*

## WHY CSU:

**EXCELLENT STUDY FACILITIES.**

**EXCITING STUDENT LIFE IN A WELCOMING CITY.**

**MODERN LABORATORIES AND EQUIPMENT.**

**GREAT LOCATION AND SCENERY.**

## ABOUT THE UNIVERSITY

The history of the University begins in 1906. Originally, under the influence of the progressive public, the Moscow Women's Courses were organized. Later on, the courses were transformed into the Second Moscow State University, from which, in 1930, the independent Second Moscow State Medical Institute emerged. Eventually, in 1956 it was named after the great Russian surgeon and anatomist Nikolai Ivanovich Pirogov (1810-1881).

In 2010, Pirogov University received the status of National Research University. In 2011, by the order of the Ministry of Health and Social Development of the Russian Federation, the Russian State Medical University was renamed to the Russian National Research Medical University named after N.I. Pirogov.

This University maintains a great network with the biggest Moscow State clinical hospitals which aid many people with various pathologies.

**>2000**  
professors

**>32,863**  
students

Medical students are given great experiences and unique opportunities to learn how real patients are diagnosed, treated, operated and how they recover. Also, the students are given a chance to assist senior doctors at the clinics so that they can analyze how to treat real patients.

The University is known to have three multi-profile medical research centers, eight academic departments, and four research institutes. It has roots in leading urban hospitals, dispensaries and maternity homes. Future doctors get hands-on clinical experience at the medical centers under the guidance of experienced professionals.

*Every year there are thousands of local and foreign graduates of Pirogov University who contribute to medical breakthroughs and do research in various medical fields to broaden the use of methods of treating patients, all of which grants the University worldwide recognition.*

## WHY PIROGOV RNRMU:

The University trains highly-qualified doctors and specialists whose duty is to protect and preserve people's health.

All University hospitals possess modern medical equipment.

There are volunteering programs at the university including charity events, supporting orphanages and other activities.

## FACULTIES

- Therapeutic Faculty;
- Medicobiological Faculty;
- Dentists' Faculty;
- Pediatric Faculty;
- International Faculty;
- Pharmaceutical Faculty;
- Psychological-Social Faculty;
- Medical Biochemistry;
- Medical Biophysics;
- Medical Cybernetics.

## ACCOMMODATION

The first thing you see at the entrance is a guard post. Hostel guards monitor each person who is entering and leaving the premises, as well as provide security 24/7. Please note that from 1:00 am to 6:00 am the hostel is closed, but late students are always let in.

On the third floor there is a reading room. It is equipped with wide tables and comfortable chairs where you can meet a lot of students. Students live on second up to fifth floors. At each floor there are closets, kitchens and washrooms. On the second and third floors, next to the sinks are rooms for drying clothes.

## MOSCOW CITY

Moscow is the capital of Russia, a federal city, the administrative center of the Central Federal District and the center of the Moscow region. It is the largest city by population in Russia - 12,630,289 people, and as of 2019, Moscow is among the ten cities in the world in terms of population and is the largest Russian-speaking city in the world.

Moscow is a popular tourist center of Russia. The climate of Moscow is moderately continental, with a pronounced seasonality.

## ABOUT THE UNIVERSITY

Dagestan State Medical University (or DSMU) was founded in 1932. This University is situated in Makhachkala City which is the capital of Dagestan Republic. Since the University was established, over 25,000 specialists, 100 doctors of Sciences and 350 candidates of Science have been trained. The students who graduated from Dagestan State Medical University are now scientists, organizers of health protection and are working in different countries. At present, there are 5,200 students in DSMU, including numerous of international students from 12 countries.

There are six specialization courses in the University. The students are provided with both undergraduate and postgraduate programs. Over 83 years, this medical University has truly become a solid medical institution. Not to mention, more than 27,000 local and foreign doctors have successfully graduated from the University ever since its establishment.

**>25,000**  
graduates

**>5200**  
students

Students of Dagestan State Medical University not only participate in annual student conferences, presidiums, nights of science and various sport competitions, but also rank high compared to other universities.

## FACULTIES

• GENERAL MEDICINE; • PEDIATRICS; • NURSING; • PHARMACY.

*With the help of highly qualified teaching staff and decades of experience and study traditions, it is in every student's ability to become a medical professional who is in high demand on the labor market!*

## WHY DAGESTAN STATE MEDICAL UNIVERSITY:

A high number of University graduates, with 27,000 doctors having already graduated from different parts of the world (Africa, Nepal, Iran, Bangladesh and others).

All students are provided with degrees which are recognized by a number of organizations and countries (the USA, the UK, African and Asian countries).

There are four Research Institutes at the University which have numerous lecturers and practitioners with vast knowledge and experience.

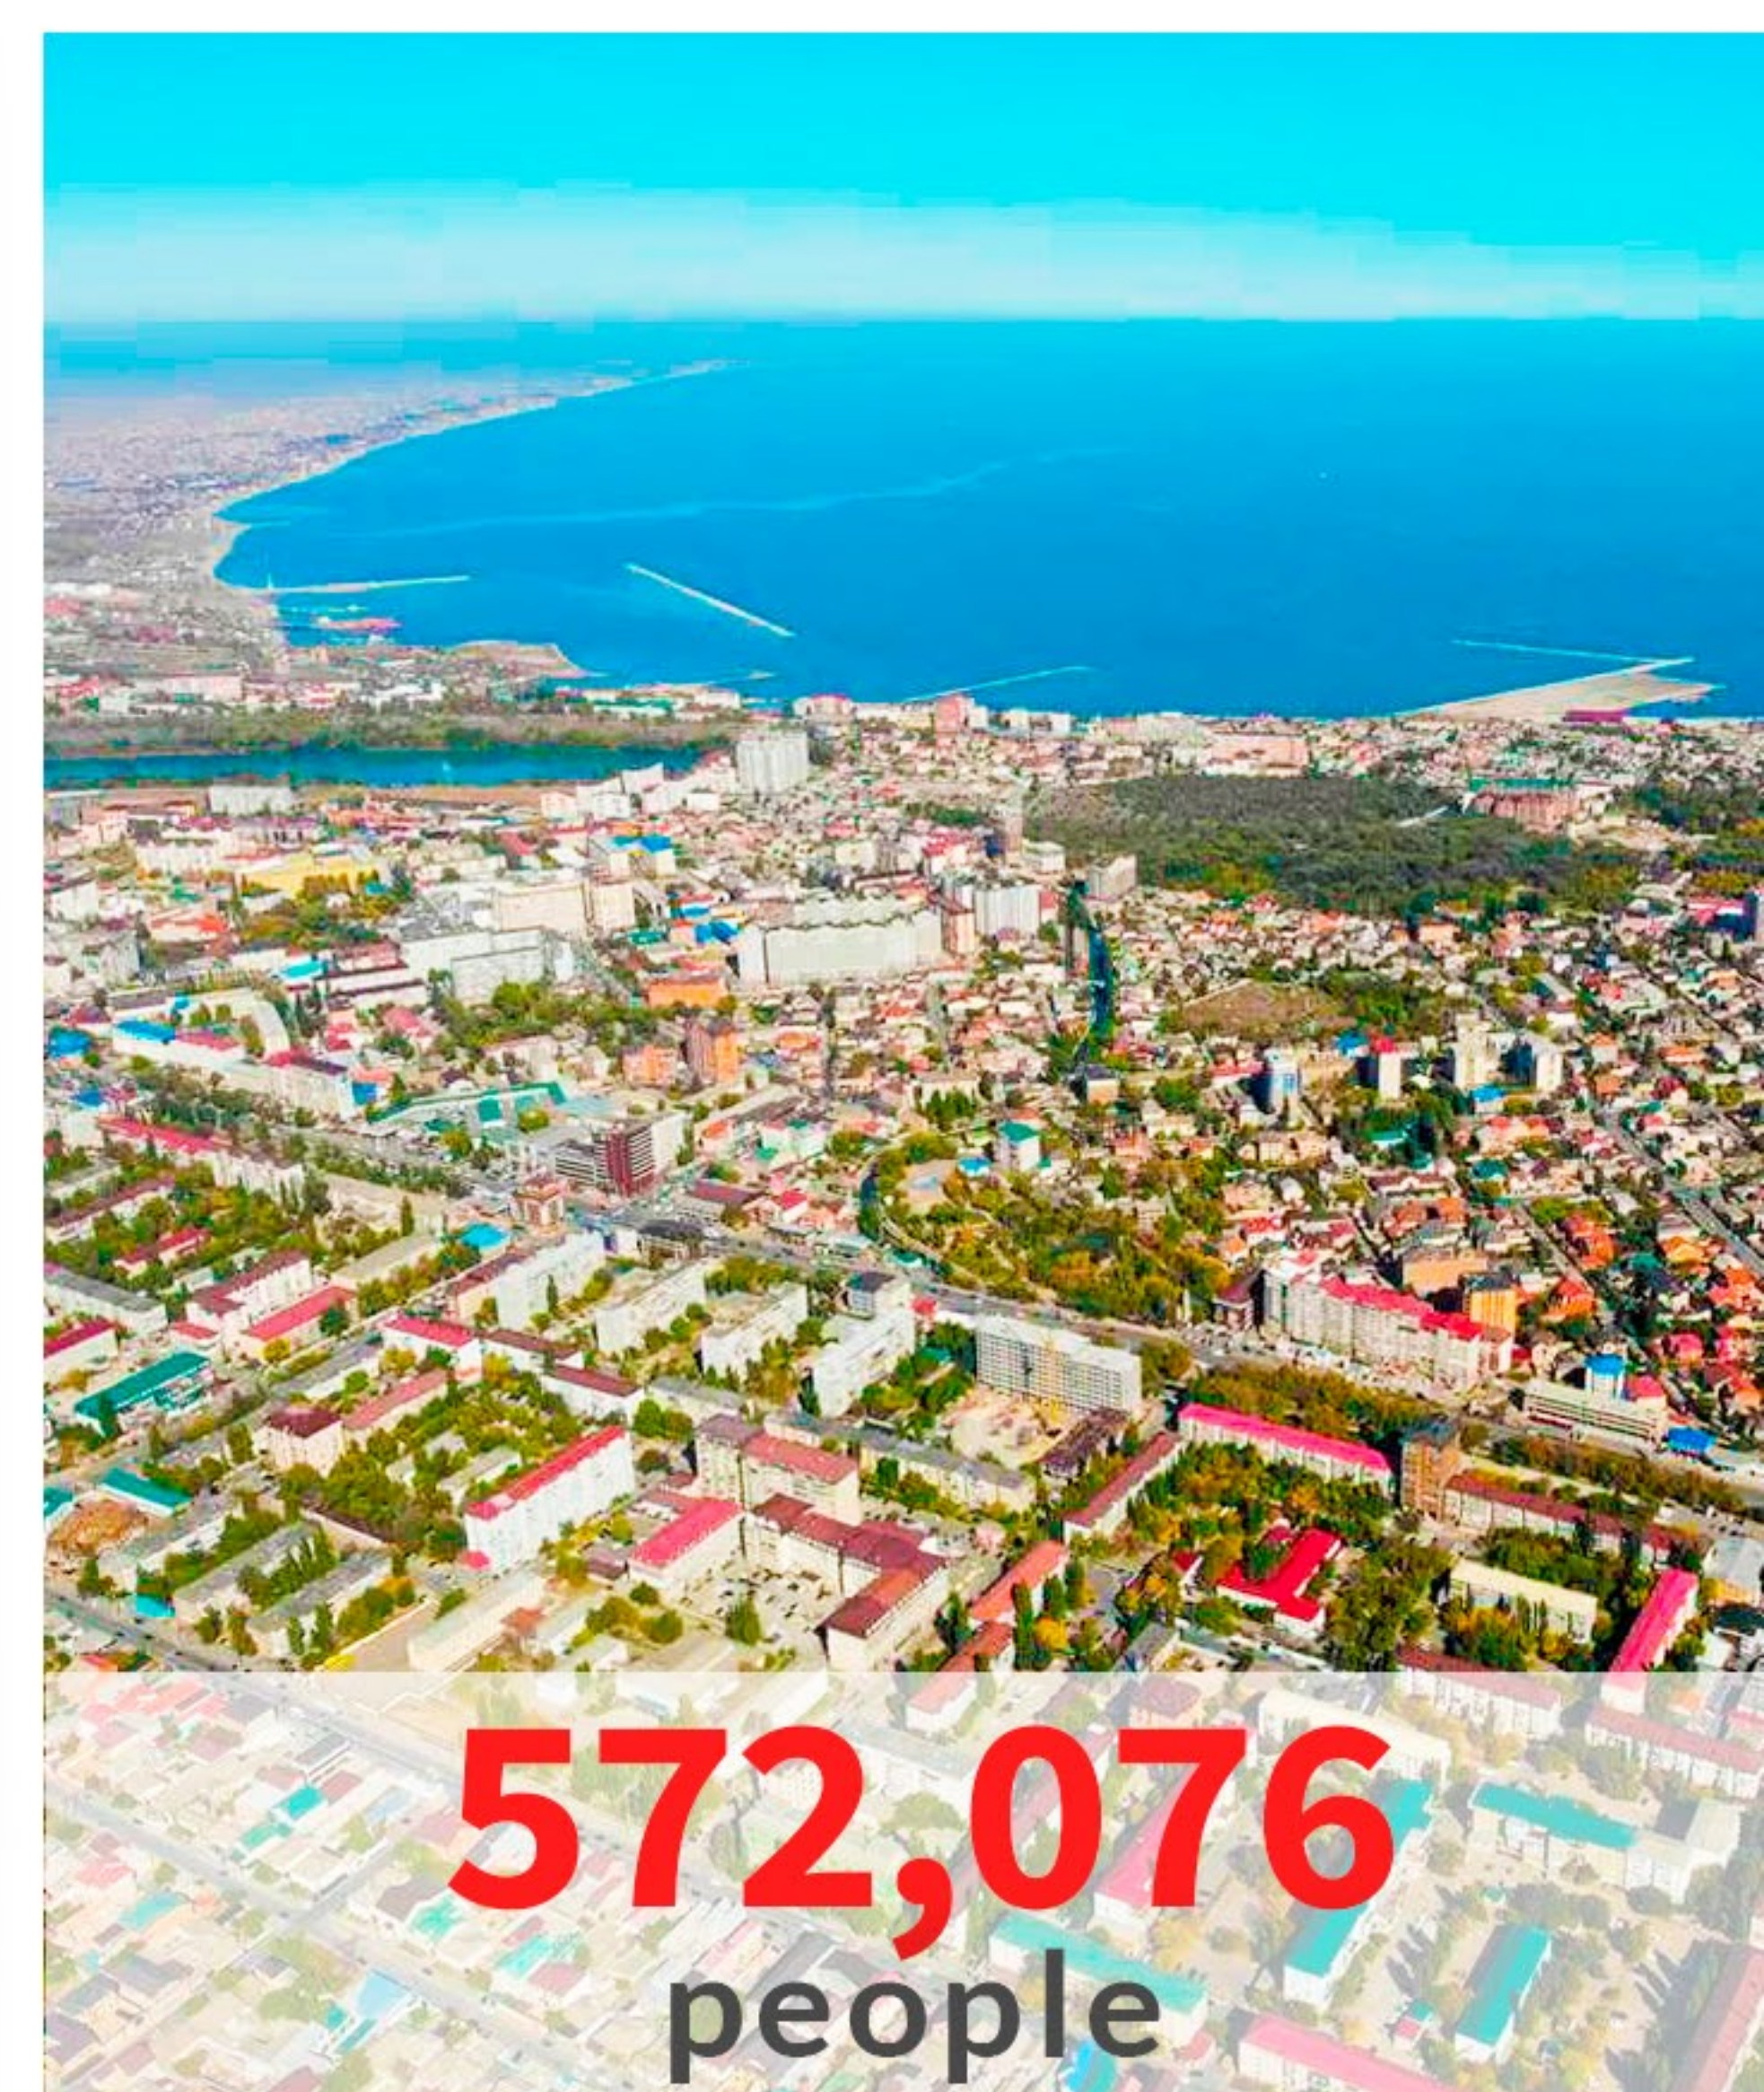

## ACCOMMODATION

The hostel of Dagestan State Medical University is a hotel type. In each block, there are bathrooms and kitchens having all necessary equipment and furniture. Every block consists of two, three or four rooms. The hostel is newly renovated and comfortable for students' stay during the whole study period.

## MAKHACHKALA CITY

Makhachkala is a city in southern Russia, the capital of Dagestan Republic, located on the shore of the Caspian Sea. It is a cultural, economic, scientific, and tourist center of the region. Founded as a fortress of the Russian Empire in 1844 and given city status thirteen years later, the city bore the name of the Russian Tsar Peter the Great until 1921. As of the 2010 Census, the city had a population of 572,076, making it the largest in the North Caucasus Federal District. Makhachkala is a major tourist and health center. Today, Makhachkala is home to more than 60 nationalities. Thanks to the warm climate and favourable geomagnetic environment, a large number of resorts and treatment centers can be found near the city. Makhachkala City is a very well-built and picturesque modern city.

# FIRST MOSCOW STATE MEDICAL UNIVERSITY

## ABOUT THE UNIVERSITY

The forefather of the school was the medical faculty of Moscow University which was opened in 1755 thanks to the efforts of the chemist M. V. Lomonosov. In 1955, the university began to bear the name of the Russian physiologist I. M. Sechenov who was its graduate and teacher. In 2015, the agency Expert RA assigned the First Moscow State Medical University named after I.M. Sechenov's rating class "B", which marks the high level of student training.

The First World War introduced its adjustments to the development of the university, during which the University began to produce field surgeons, medical orderlies, traumatologists and junior medical personnel to treat wounded soldiers at the front. It is noteworthy that FMSMU assigns a special role to the field of biomedicine, because within the framework of the international program "5-100" the university opened the Scientific and Technological Park.

**>2300**  
professors

**>21,500**  
students

It combines several divisions: the Institute of Molecular Medicine, the Institute of Personalized Medicine, the Institute of Translational Medicine and Biotechnology, and Institute of Regenerative Medicine.

The main task of the scientific and technological park is the development of diagnostic test systems, pharmacological preparations and biomedical cell products for rapid introduction into practical medicine. At this stage, the university conducts research in the field of neurology, oncology, pulmonology and rheumatology.

*In 2018, the university opened another area - the Institute of Bionic Technologies and Engineering, the key task of it being the development of artificial organs and the creation of bionic prostheses, implants and tissues.*

## WHY SECHENOV UNIVERSITY:

FMSMU is the largest educational and scientific complex for the training of specialists in the field of dentistry, surgery, neurology, pharmacy and so on.

Sechenov University is consistently among the leaders in ranking of the best medical universities in Russia.

The University is well famous for its surgical department, since it became the alma mater for many Russian surgeons.

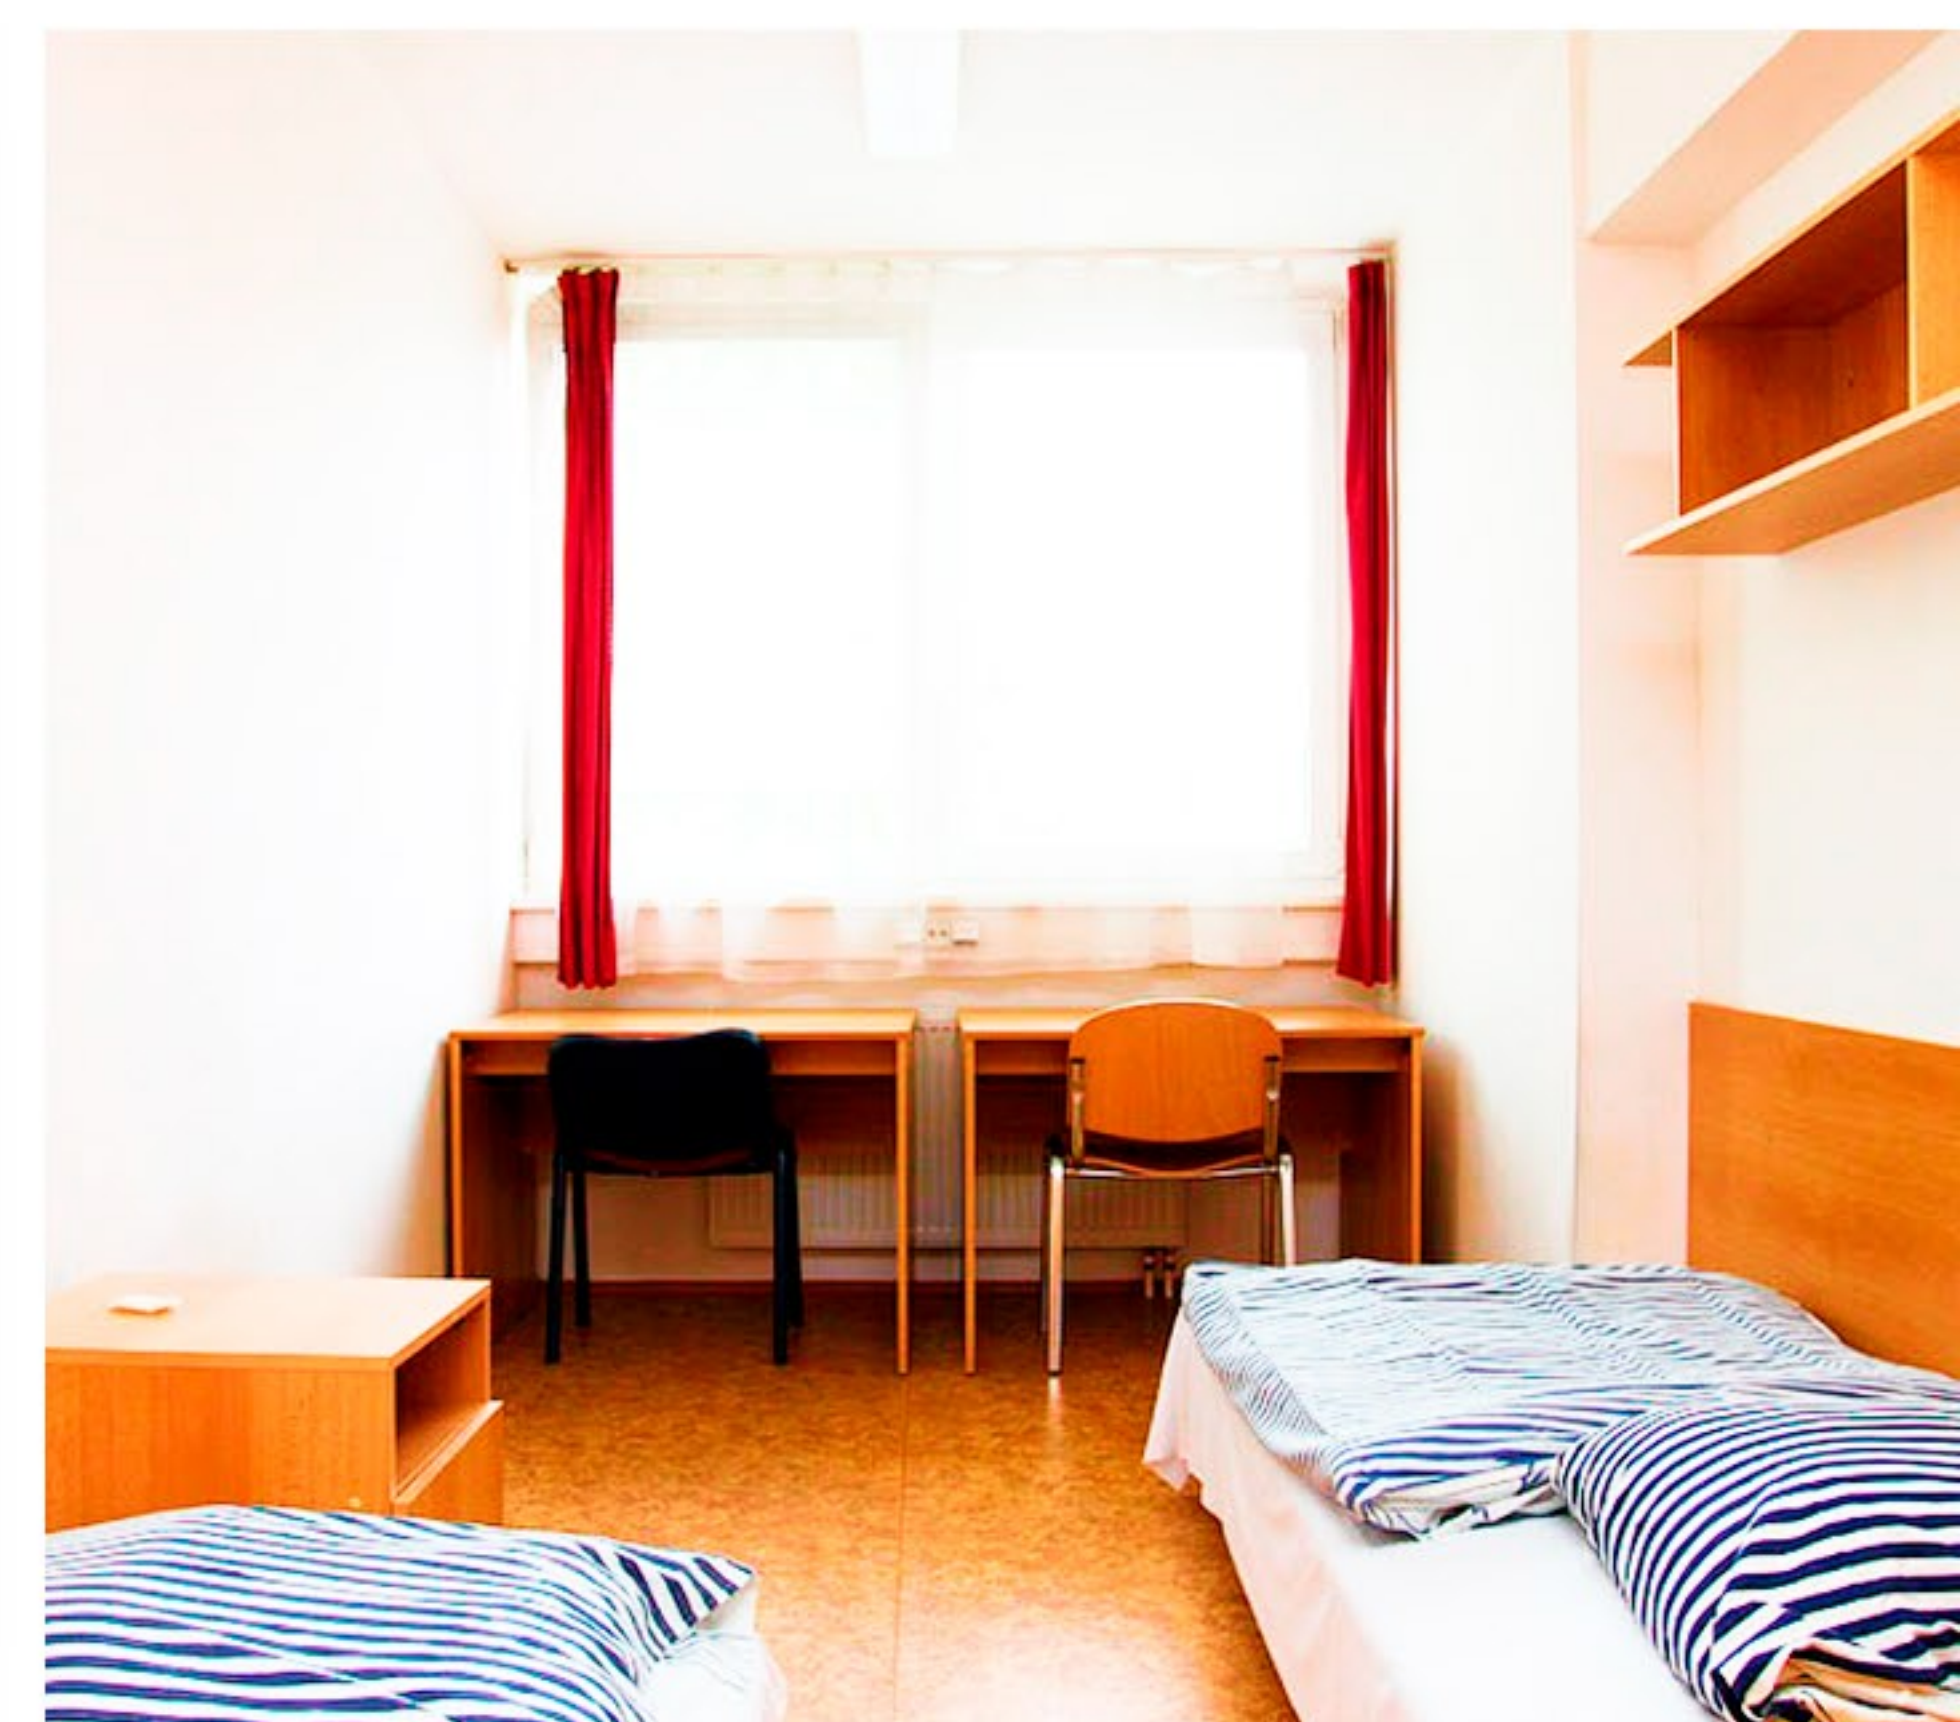

## FACULTIES

- Faculty of General Medicine;
- Faculty of Dentistry;
- Faculty of Pharmacy;
- Faculty of Postgraduate Professional Training of Physicians;
- Faculty of Preventive Medicine;
- Faculty of Pediatrics;
- Faculty of Health Care Management and Economics;
- Faculty of Higher Nursing Training, Psychology And Social Work;
- Preparatory Faculty.

## ACCOMMODATION

The university has three hostels in which Russian and foreign students live. All dormitories are of block type, each block consists of two rooms. Some foreign students are settled in apartment-style dormitories of enhanced comfort. Students live 2-3 people in a room.

The hostel is fully equipped and has everything for a comfortable stay: numerous domestic appliances, running hot and cold water, free Wi-Fi connection and other.

## MOSCOW CITY

Moscow is the capital of Russia, a federal city, the administrative center of the Central Federal District and the center of the Moscow region. It is the largest city by population in Russia -- 12,630,289 people, and as of 2019, Moscow is among the ten cities in the world in terms of population and is the largest Russian-speaking city in the world.

## ABOUT THE UNIVERSITY

Rybinsk State Aviation Technical University (RSATU) was founded on May 25, 1955. It is a technical aviation university which started its history in the 1930s and is associated with the history and achievements of Soviet and Russian aircraft engines. Currently, the University provides training in the design and production of aircraft engines, general engineering, instrumentation, economics and management, social-cultural service and tourism, quality management, information technology, programming, computing and energy supply enterprises.

The library of Rybinsk State Aviation Technical University is the same age as the university itself - it was organized in 1955. As of today, the library has about 660,000 books. These are educational, scientific literature, periodicals, regulatory and technical documentation.

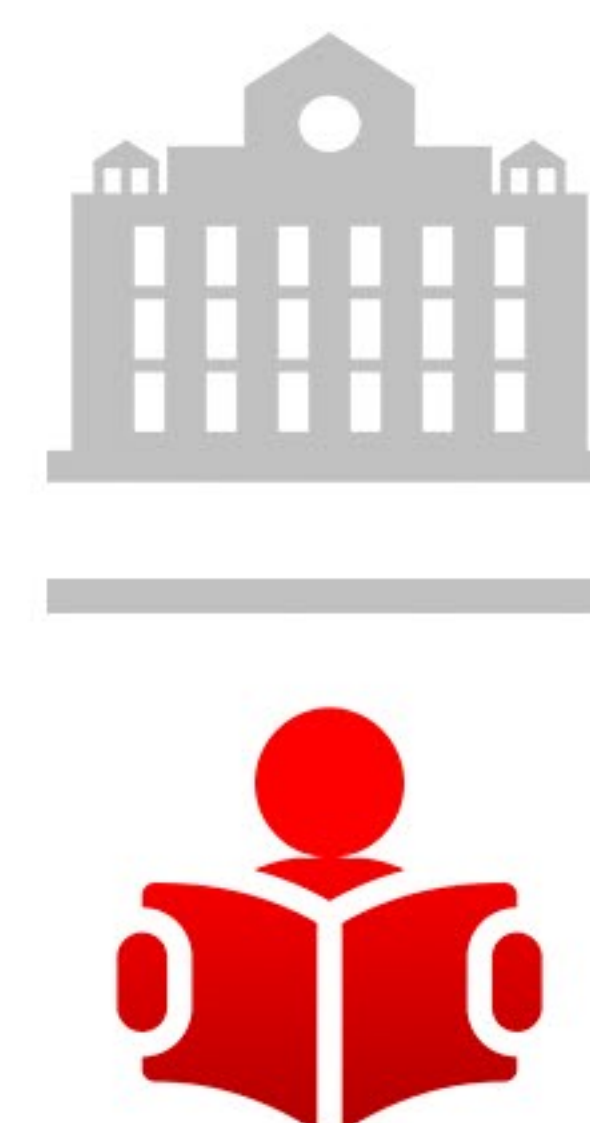

**75,000**  
graduates  
**12,500**  
students

**600,000**  
books

## The mission of the University is:

- Generation of knowledge and synthesis of innovations in priority directions of development of science and technology on practical applied research;
- Provision of the modern level of training specialists with competencies in the field of implementation of innovative technologies for the aviation, aerospace, energy, information and defence industries;
- Creative development of engineering and technological schools in the field of aerospace and engineering on the basis of achievements of modern science and technology.

*Priority directions of development of the University are: scientific research, equipment and technology used in the production and operation of aircraft and gas power installation, energy machines, ships, aerospace navigation instruments; as well as training specialists with core competencies in the aerospace industries.*

## WHY RSATU:

The University has its own so-called electronic educational environment.

Rybinsk State Aviation Technical University actively participates in international exhibitions, competitions and conferences.

Rybinsk State Aviation Technical University is one of eight higher educational institutions in Russia specializing in aviation.

## FACULTIES

- Aviation and Automotive Engineering;
- Aviation Technology;
- Radioelectronics and Informatics;
- Retraining and Advanced Studies.

## ACCOMMODATION

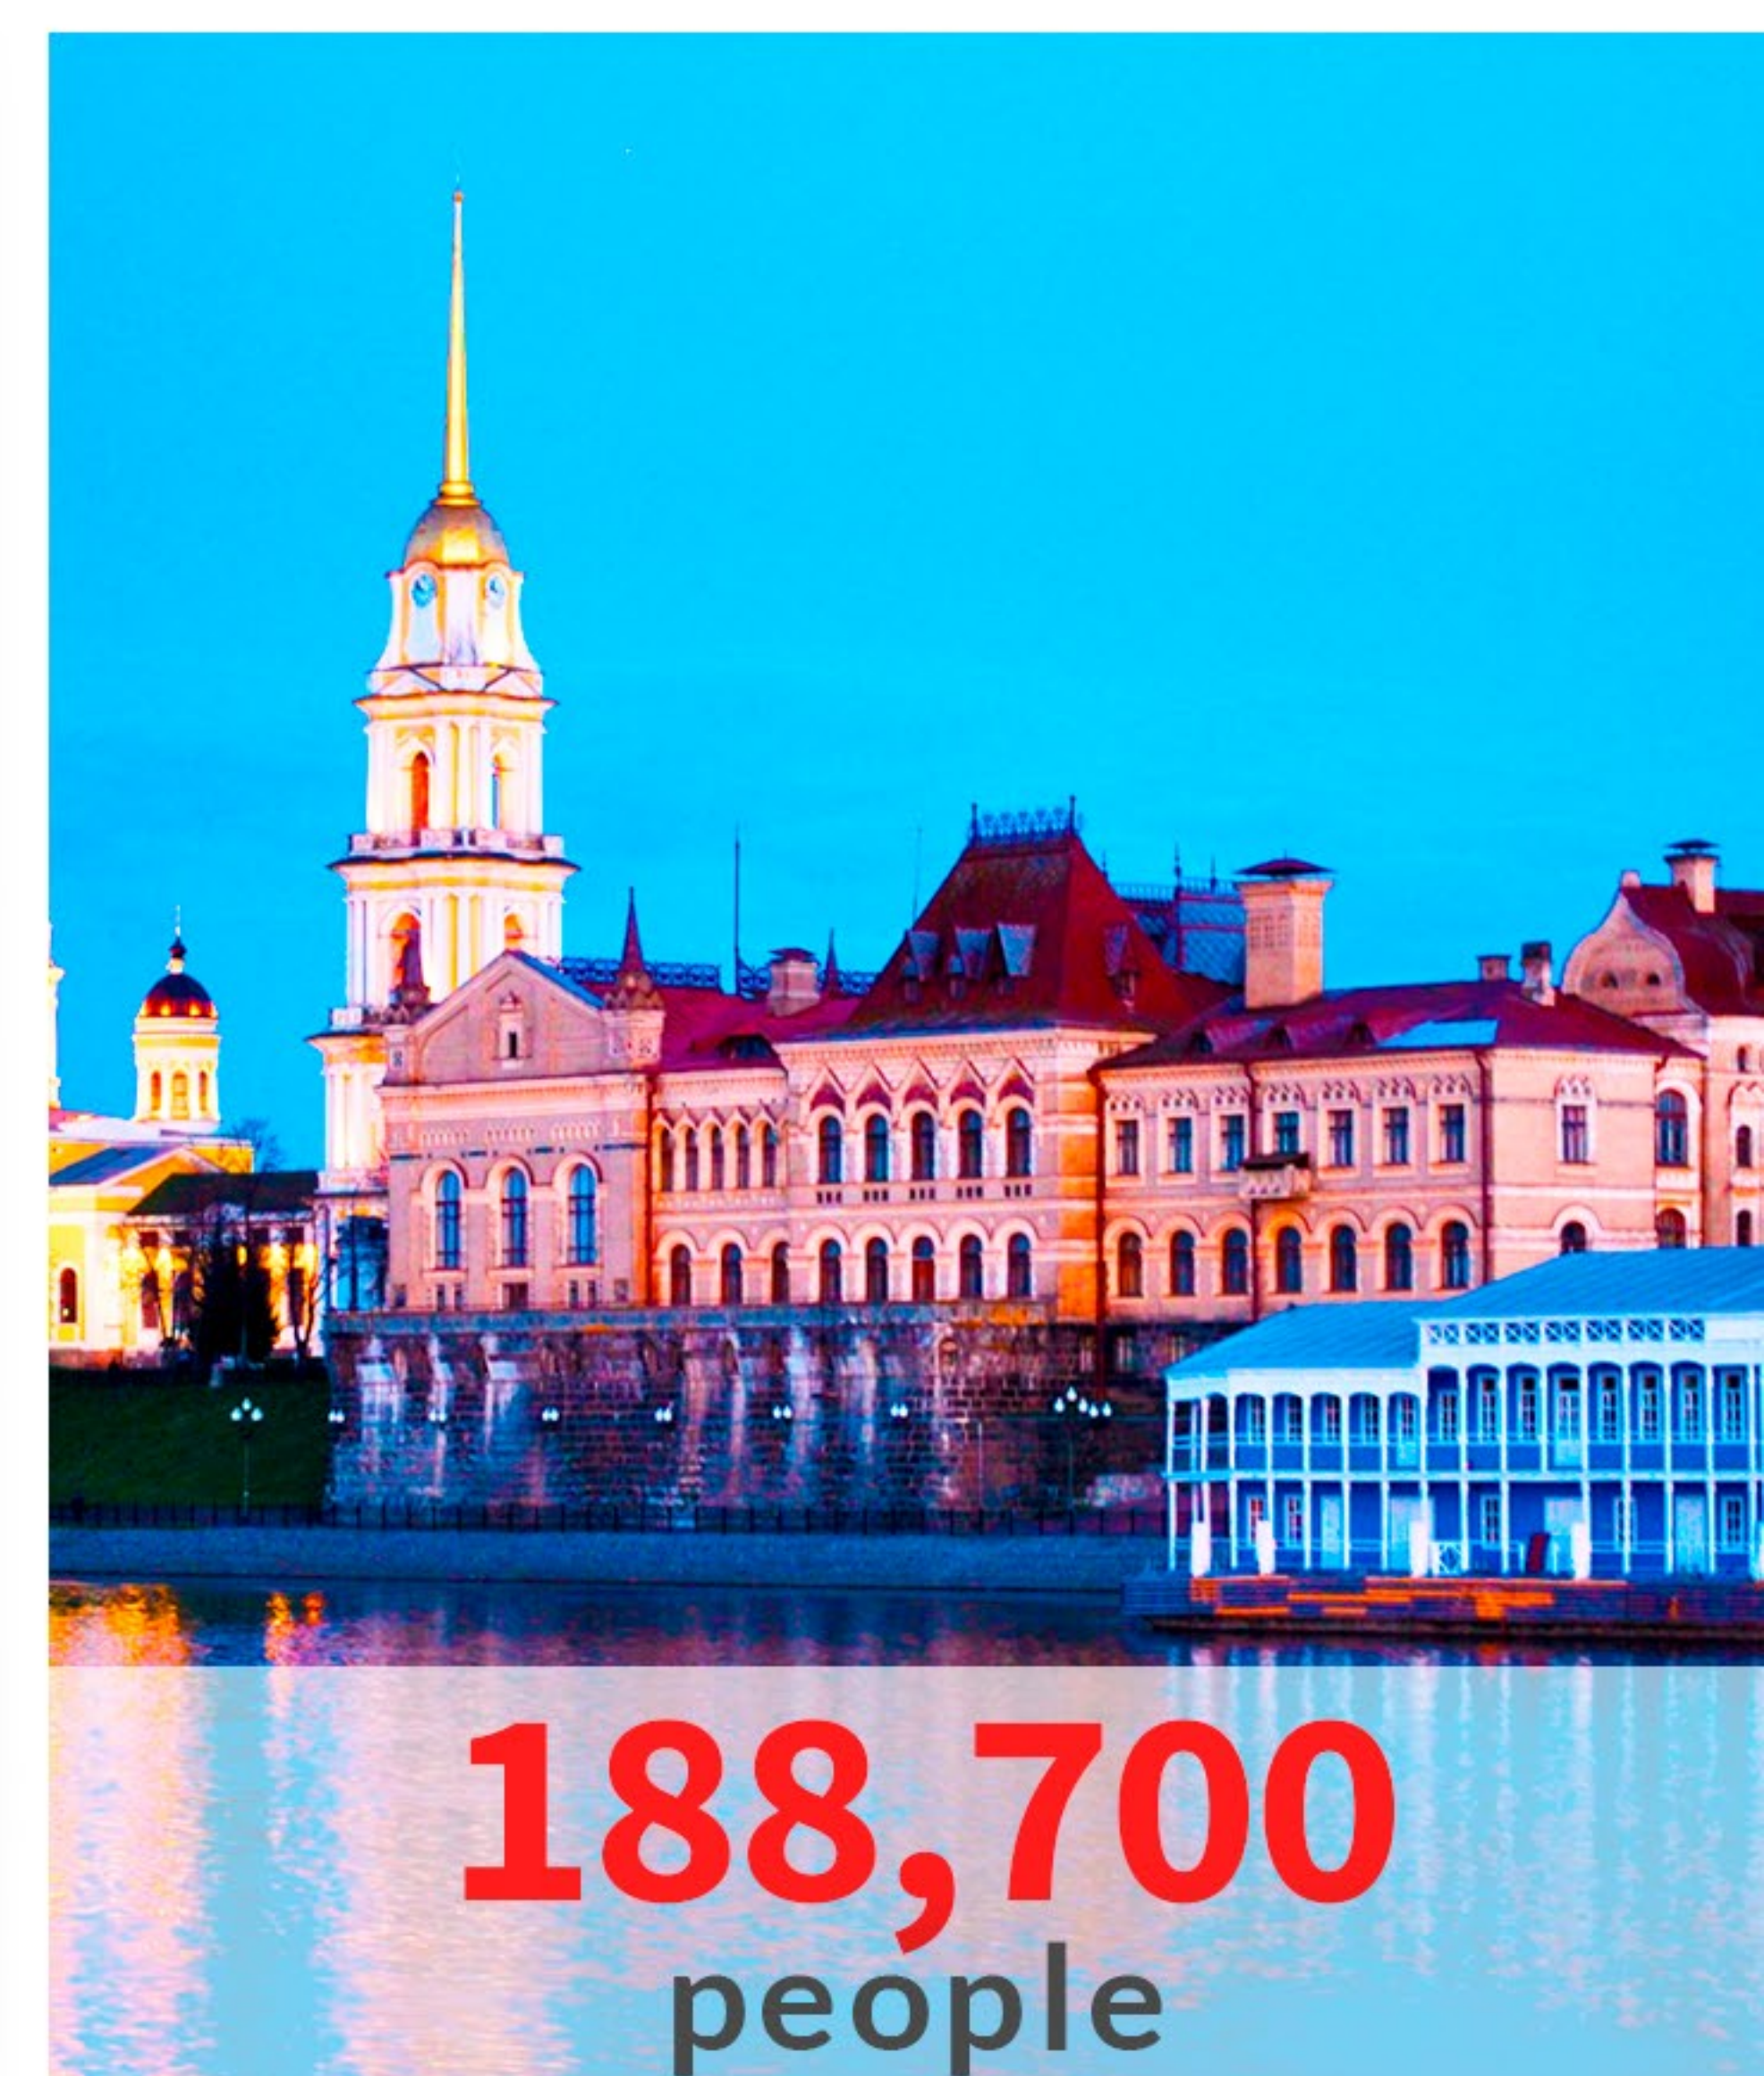

Rybinsk University student hostel is a hospitable, cozy and convenient place to stay in it.

It is a good option for inexpensive and comfortable accommodation for students.

## RYBINSK CITY

Rybinsk is one of the oldest Slavic settlements on the Volga River. The name is explained by the fact that the settlement supplied the Muscovite court with choice sturgeons and sterlets. Rybinsk is an important center of machine building. It has a shipyard, a printing plant, and plants that produce road machinery, motors, electrical equipment, cables, hydro mechanization equipment, and woodworking machines. The food industry in Rybinsk is represented by milling, meat, and refrigerator machines by a milk plant, confectionery factory and a plant that produces beer and nonalcoholic beverages. Rybinsk has furniture and wood product machines and plants that produce plastic goods, leather and optical glass. It is the site of a 330-megawatt hydroelectric power plant.

KISTU was founded in 1952 in the period of intensive industrial development when there was an increasing demand for highly qualified engineers, capable of managing production processes.

## ABOUT THE UNIVERSITY

On its 60th anniversary the University was named after the legendary small arms designer Mikhail Kalashnikov. At present Kalashnikov ISTU is a leading higher educational institution in the region and one of the leading technical schools in Russia, a training center of engineers and academics. Kalashnikov Izhevsk State Technical University is a signatory of Magna Charta Universitatum in Bologna, Italy and a full member of European University Association (EUA).

6 Bachelor and 1 Master study programs of Kalashnikov ISTU have been accredited by Central Evaluation and Accreditation Agency ZEvA, Hannover, Germany with the possibility to issue internationally recognized degree supplements. Izhevsk State Technical University named after M. T. Kalashnikov can be considered a major educational institution, in which more than 24,000 students study. The educational institution accepts both local and foreign citizens. The academic year is classically divided into two academic semesters, and the academic staff of the university is 899 teachers.

**>899**  
professors

**>5,000**  
students

## THE MAIN RESEARCH AREAS OF KALASHNIKOV ISTU:

- Information and telecommunication technologies;
- Production and processing techniques for constructional nanomaterials;
- Energy efficiency, energy saving, rational management of natural resources;
- Perspective types of arms, military and special machinery;
- Organization and management of modern innovative production.

In summary, Kalashnikov University is truly a university to consider studying in because of high standards of education provided by highly qualified professionals, recognized degrees and comparatively low tuition fees.

## WHY KISTU:

Moscow Institute of Physics and Technology is one of the most awarded university in Russia.

Highly qualified professors and scientists with outstanding background.

Student construction teams of Izhevsk University are considered to be among the best in Russia.

## FACULTIES

- Faculty of Mechanical Engineering;
- Faculty of Mathematics and Natural Sciences;
- Institute of Modern Technologies In Mechanical and Automotive Engineering and Metallurgy;
- V.A. Shumilov Institute of Construction and Architecture;
- Faculty of Instrumentation Engineering;
- Institute of Power Engineering and Housing & Utility Infrastructure;
- Institute of Informatics and Computer Engineering;
- Institute of International Study Programs;
- Institute of Digital Economy;
- Institute of Professional Continuous Education.

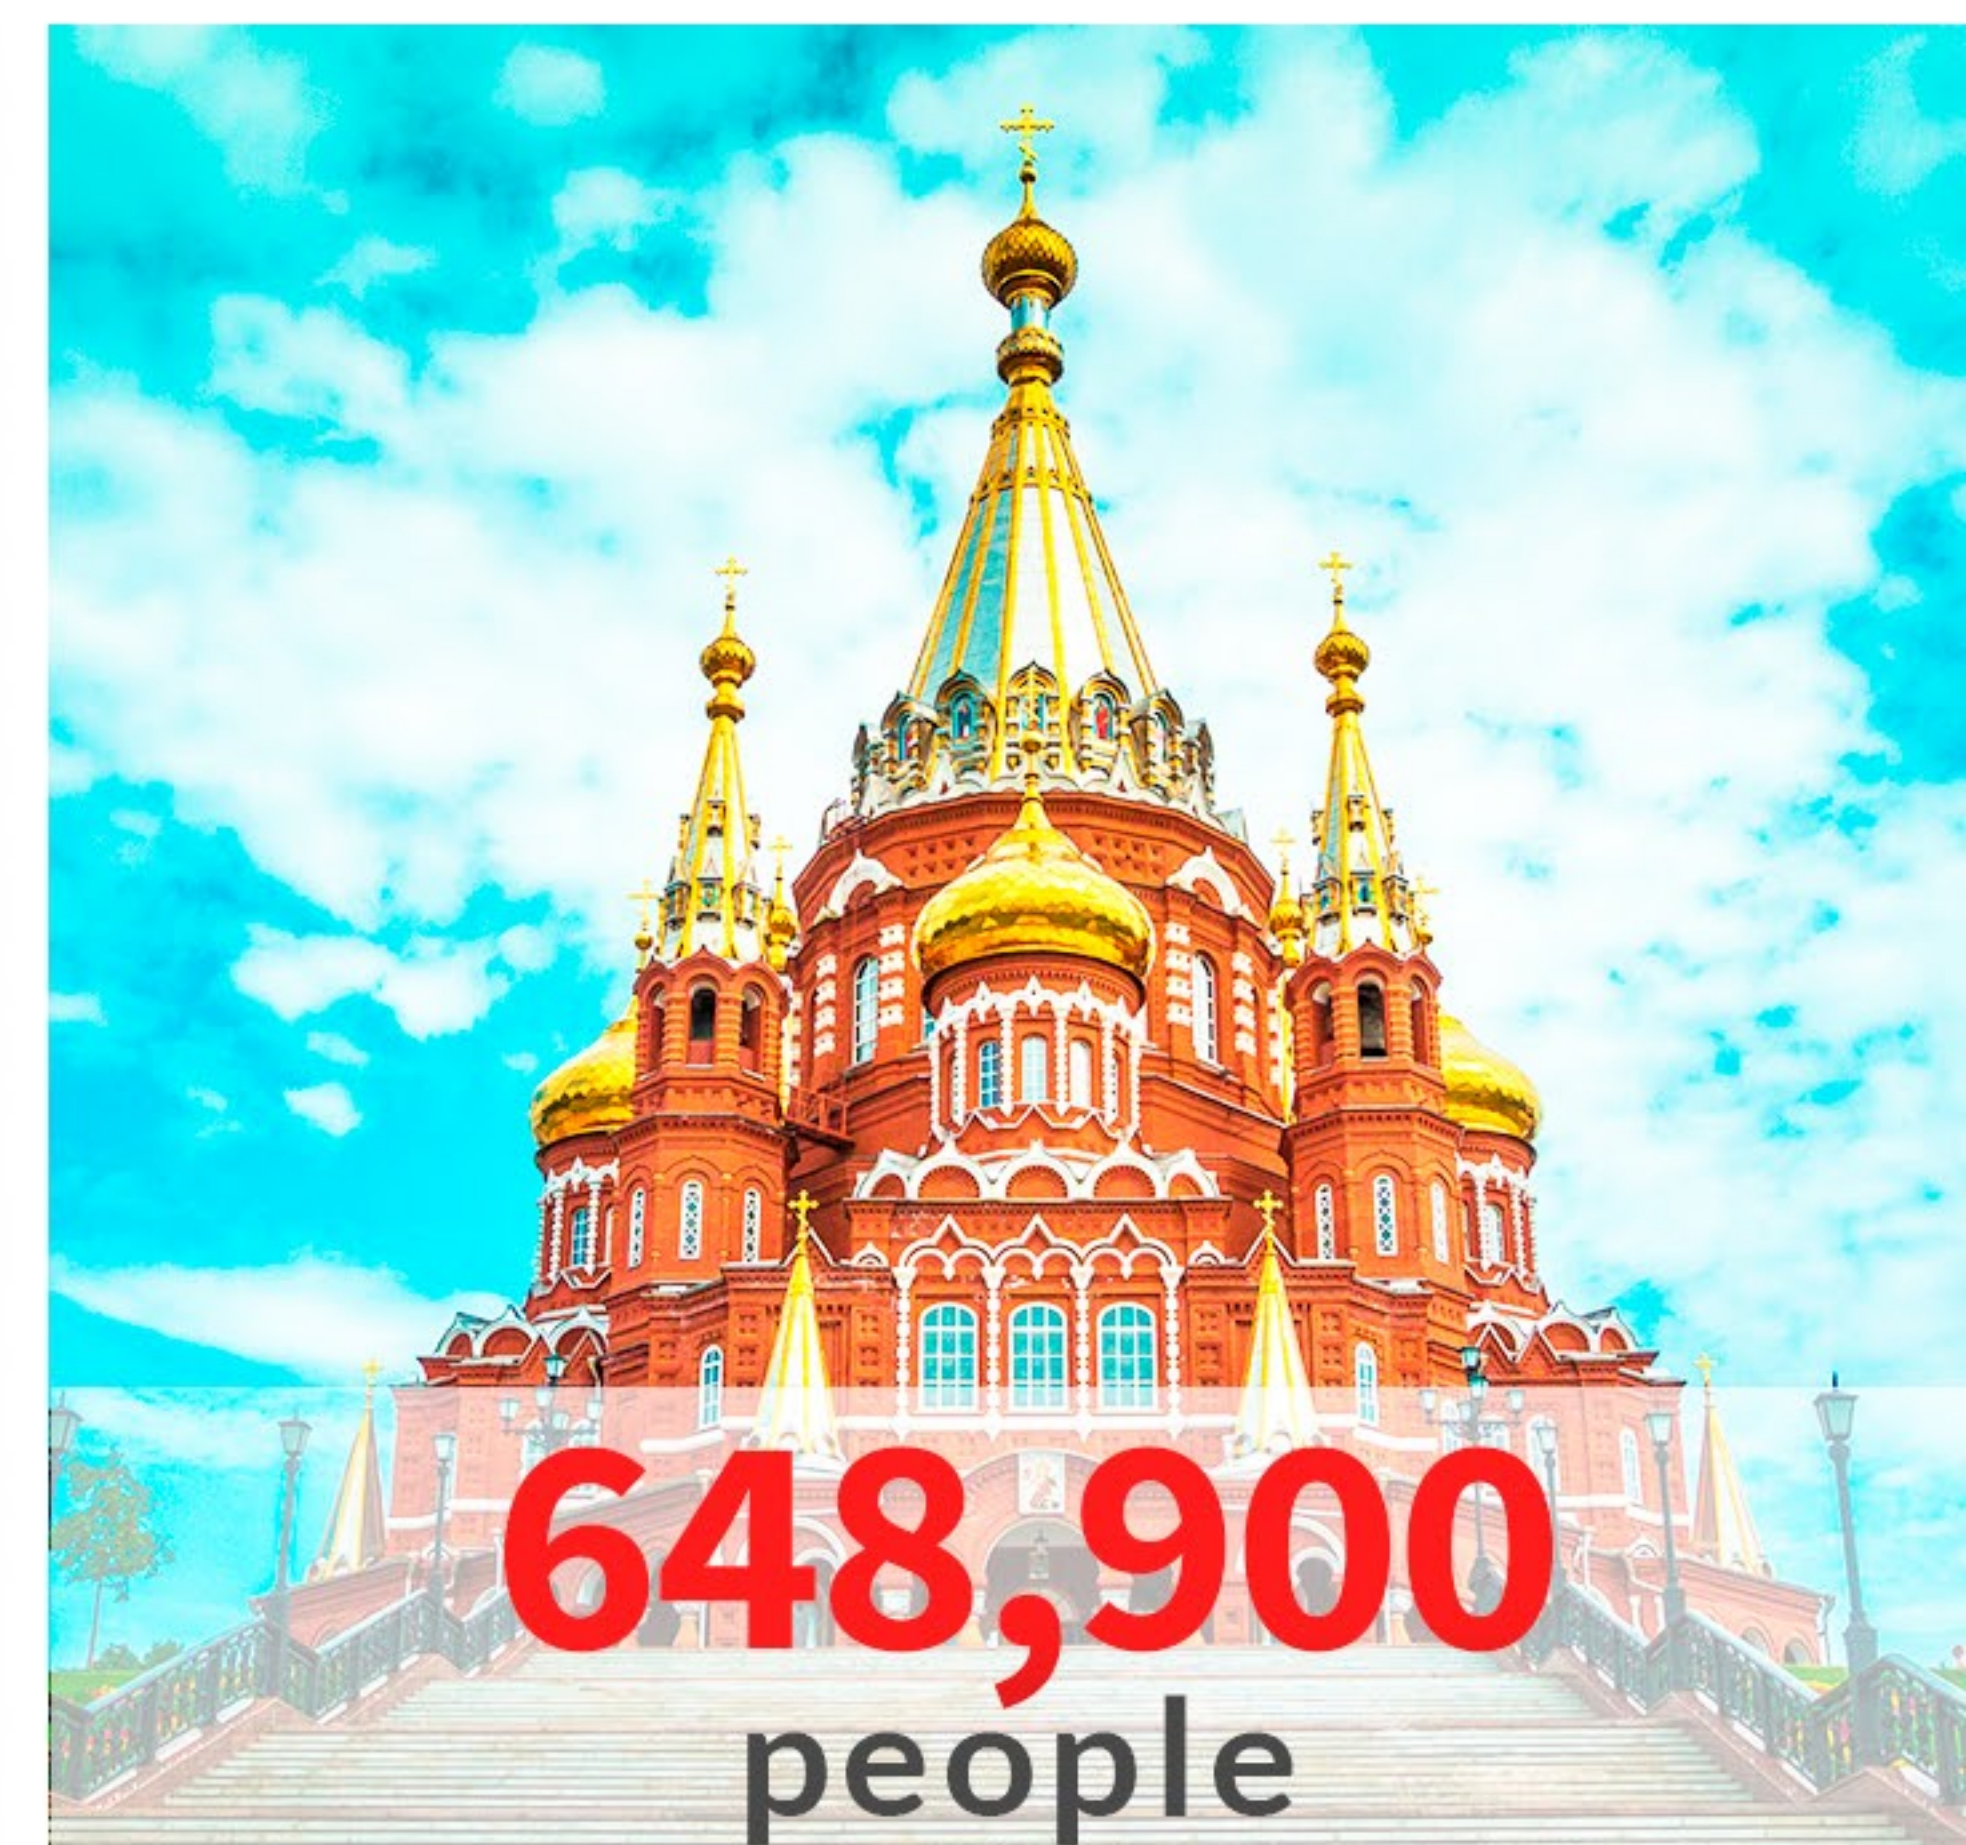

## ACCOMMODATION

The dormitory can accommodate up to 1000 students. There are rooms for 2-3 people which have the essential furniture: beds, tables, wardrobes, chairs and others. Food can be prepared in common kitchens which are located on every floor, the same goes for closets and showers. Accommodation rules in the dormitory apply to all students, and observance thereof is supervised by the Head of the Dormitory.

## IZHEVSK CITY

Izhevsk is one of the largest cities in Russia, the capital of the Udmurt Republic, located on the banks of the Izh River. Izhevsk is famous for its defence, engineering and metallurgy plants; it is one of the largest industrial centers in the country. Izhevsk is often called the "arms capital of Russia". Izhevsk is not without reason called the "arms capital of Russia"; guests of the city should look at the main factory building of the Izhevsk arms factory. The building, which is a monument of architecture, was built in the early 19th century.

GSOTU was founded in 1920 as the Higher Petroleum Technical School, comprising eight divisions, two of which were higher ones.

## ABOUT THE UNIVERSITY

By the mid-1980s, the scientific-pedagogical and material-technical potential of the institute made it possible to conduct training in almost all specialties of the technological cycle of oil and gas production. GSOTU is forming its own scientific schools, known not only in the country, but also abroad. The scientists of the institute are engaged in fundamental developments in the fields of oil and gas geology and geophysics, drilling and development of oil and gas wells, oil refining and petrochemistry, thermal physics and construction.

Over its history, Grozny University has trained more than 50,000 specialists for various sectors of the country's economy. There are 30 laboratories and 15 computer classes in all faculties of the institute. Since 2006, an information and computing center has been open for everyone's use. GSOTU library is equipped with the necessary means for receiving information. Today, the overall book fund of the institute is about 250,000 copies.

**>500**  
professors  
**15,458**  
students

There are 37 departments in the institute, within which specialists are trained in 32 specialties. Grozny Oil University trains about 6,500 students, including more than 3,500 full-time students. Over the past five years, the institute has graduated more than 3,000 specialists, 150 of whom received degrees with honors.

Famous graduates of Grozny Oil University include:

- Victor Stepanovich Fyodorov, the Minister of Petrochemical and Oil Refinery Industry
- Nikolay Alekseevitch Maltsev, the Minister of Petroleum Industry
- Anatoliy Alekseevitch Dorodnitsyn, a Soviet academician and other outstanding persons.

By applying for study in Grozny Oil Technical University, every student is sure to receive a degree which is recognized by a number of countries and organizations.

## WHY GSOTU:

The educational process at the university is carried out by 550 teachers, including 15 Doctors of Science, 70 Candidates of Science, 30 professors and 75 associate professors.

Among the graduates of the institute are five Heroes of Socialist Labor and ministers of the petrochemical and oil refining industries of the USSR.

The material and technical base comprises buildings that meet the standards of the educational process with laboratories, computer classes and modern educational laboratories.

## FACULTIES

- Institute of Applied Information Technologies;
- Institute of Oil and Gas;
- Institute of Economics and Law;
- Institute for Advanced Studies and Retraining;
- Faculty of Civil Engineering;
- Faculty of Secondary Vocational Education.

## ACCOMMODATION

In 2012 the student dormitory was completely renovated (new plumbing and double glazing was installed, and fire safety and power supply systems were replaced). The hostel has four floors, each of which consists of the north and south wings. They are equipped with all modern necessities: closets, washrooms, different kinds of appliances, stable Internet connection and others.

## GROZNY CITY

Grozny is the capital city of Chechnya, Russia. The city lies on the Sunzha River. According to the 2019 Census, it has a population of 297,137 people. Grozny was founded in 1818, when the fortress Groznaya was built. Grozny has a temperate continental climate, with mild winters and long and hot summers. The average temperature in January is -3.2° and +23.9° in July. Grozny is known as a spa town and is renowned for its modern architecture. The airport "Grozny" offers flights to Moscow and other regions.

## ABOUT THE UNIVERSITY

Kabardino-Balkarian State University (KBSU) is one of the leading scientific, educational, informational, social and cultural centers of the Kabardino-Balkarian Republic, annually graduating up to two thousand specialists. In terms of equipment, it occupies leading positions among other classical universities of Russia. In 2008, Kabardino-Balkarian State University was enlisted in 100 best universities in Russia.

In 2010, KBSU received an honorary diploma of the winner of All-Russian contest "100 Best University of Russia in the Field of Science and Education". Currently Kabardino-Balkarian State University operates the university complex as a new type of school which combines different levels of educational institutions, implementing educational programs of higher, secondary, postgraduate and additional professional education.

**>500**  
professors  
**14,500**  
students

Nowadays Kabardino-Balkarian State University holds 11<sup>th</sup> place among classical universities in Russia. KBSU has 67 departments with the teaching staff of 870 highly qualified teachers, wherein 1800 students get trained every year.

The University has been preparing specialists for foreign countries since 1966. Until now Kabardino-Balkarian State University has trained more than 14,500 students, 50% of which are international students from more than 100 countries. Kabardino-Balkarian State University teaches more than 8 thousand students every year.

University has a perfect environment for study as well as leisure. Students feel like home in this university because of the students associations for different countries so they can celebrate their festivals and feel like their own country.

## WHY KBSU:

Kabardino-Balkarian State University was awarded the Order of Friendship of Peoples for achievements in the training of qualified specialists and the development of scientific research.

Highly qualified professors and scientists with outstanding background.

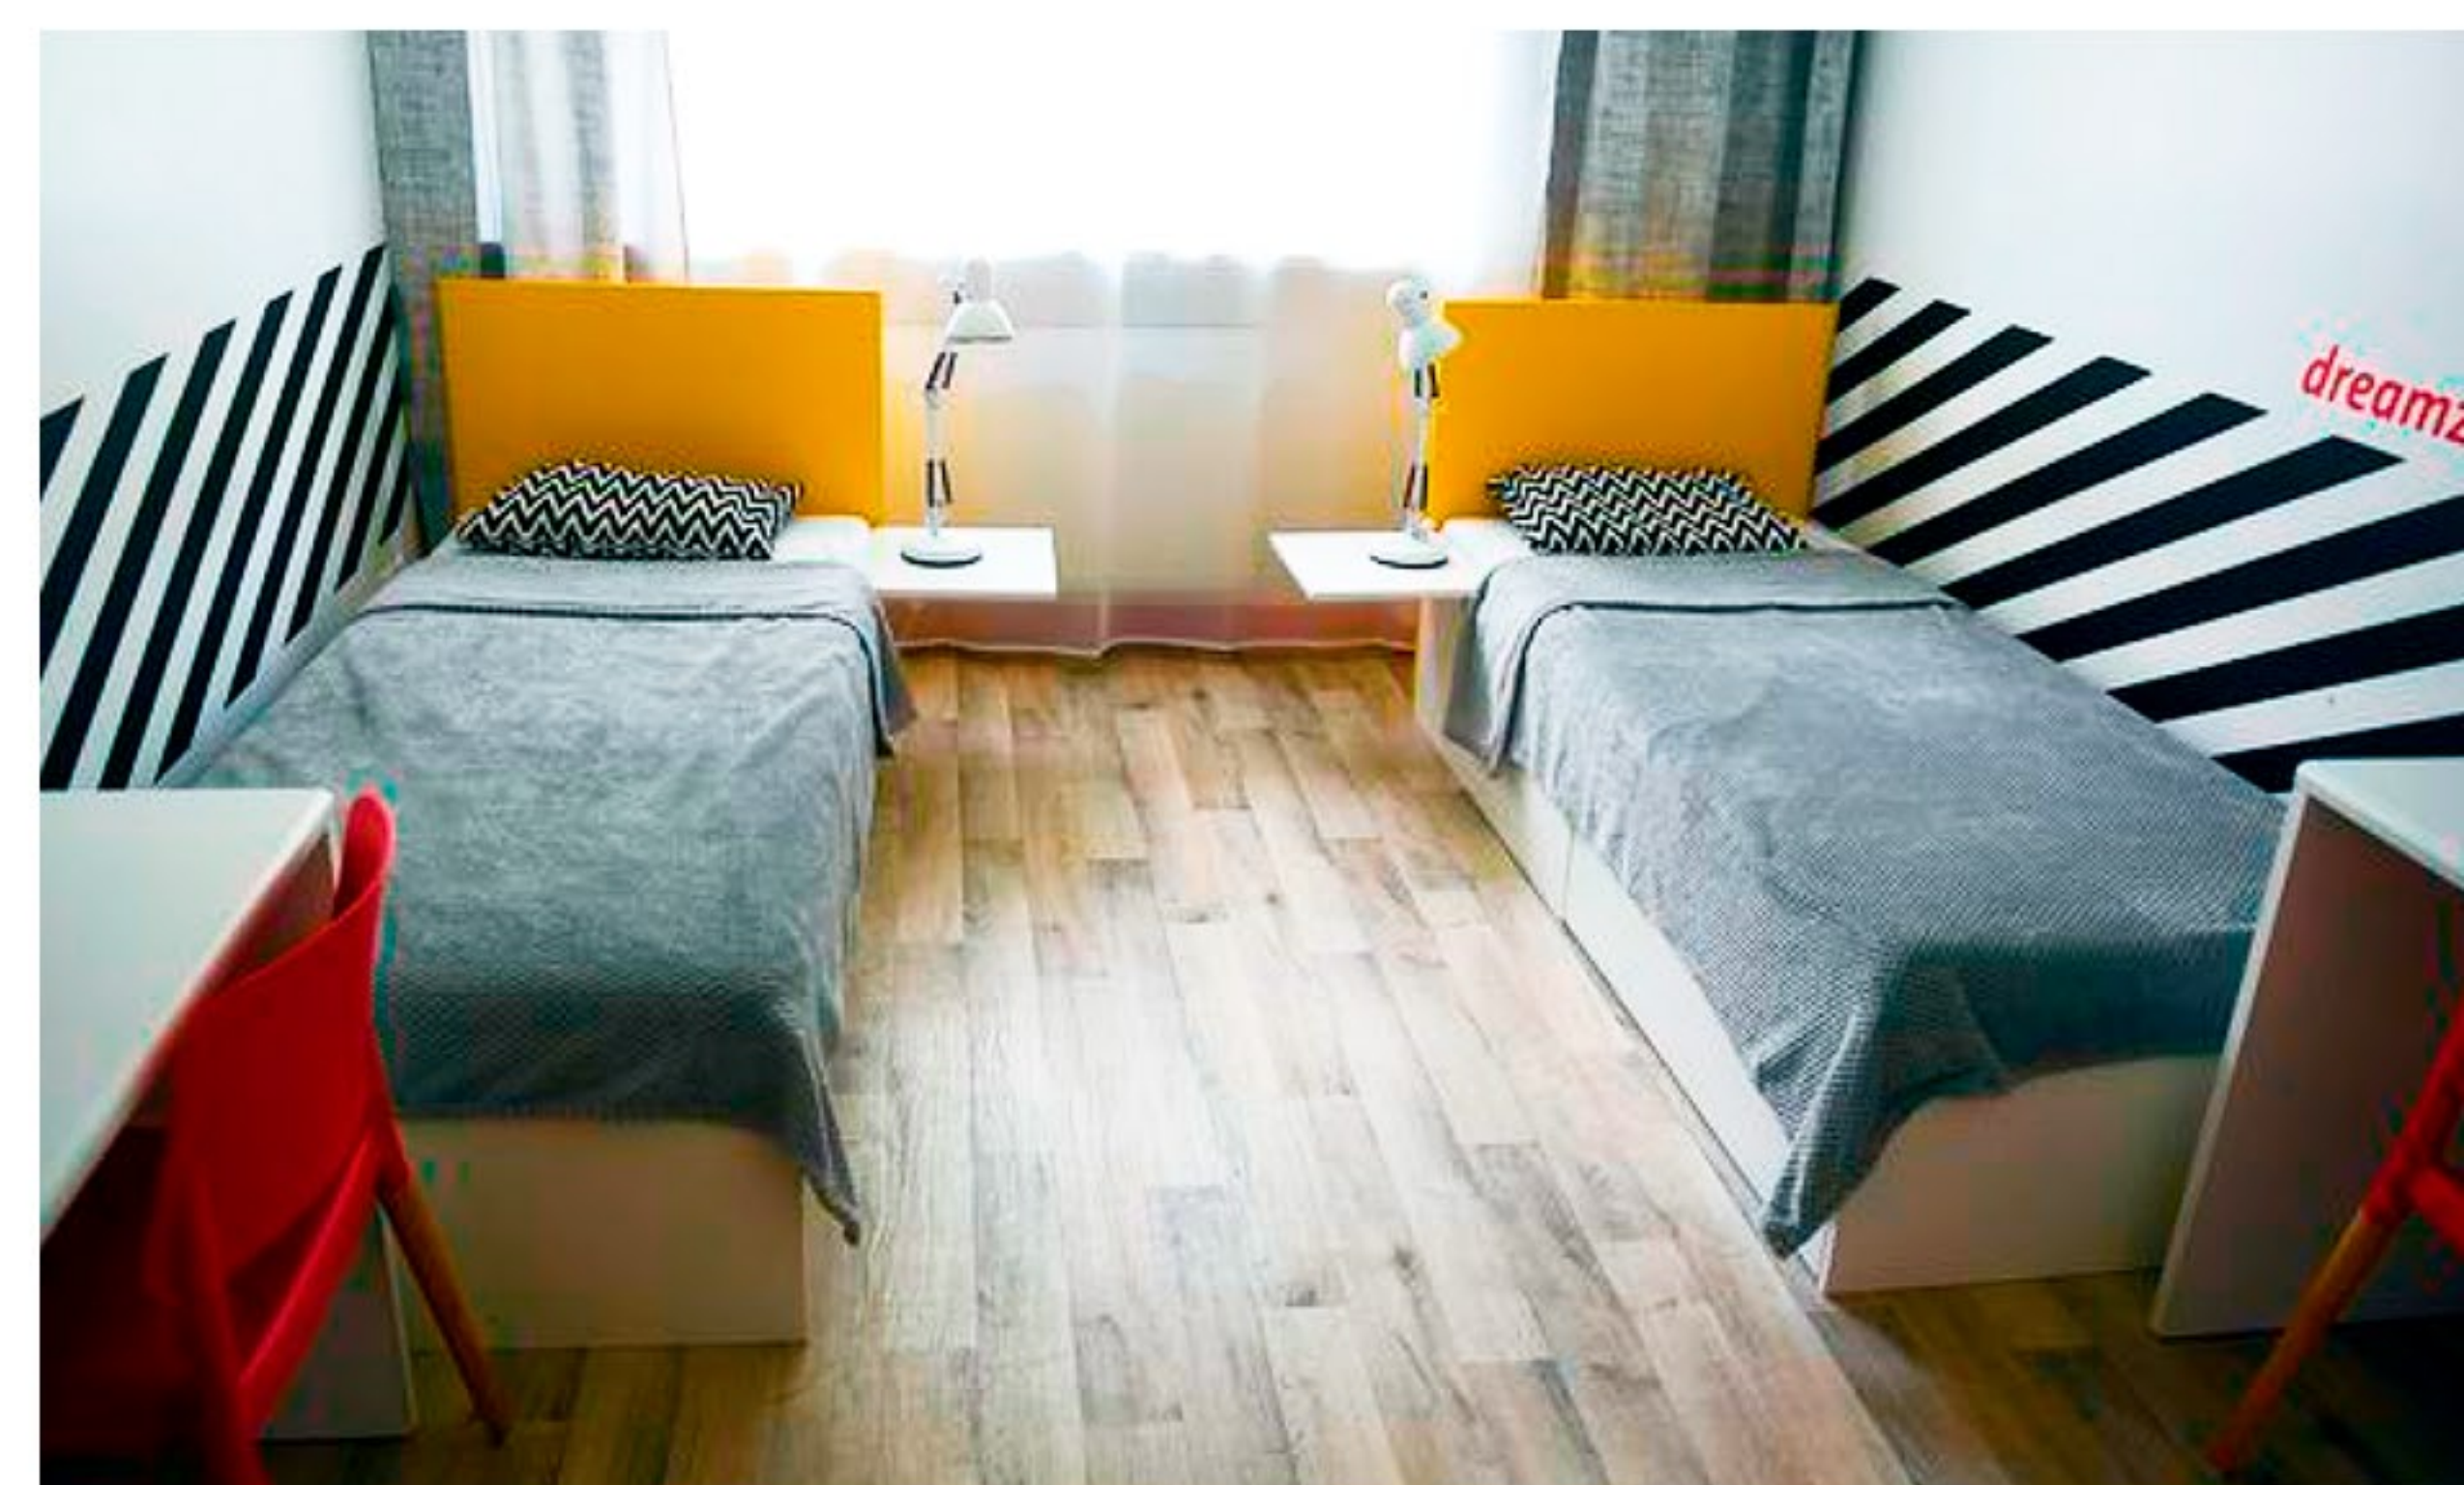

KBSU is one of the leading scientific, educational, informational, social and cultural centers of the Kabardino-Balkarian Republic.

## FACULTIES

- Architecture, Construction;
- History, Philology and Media;
- Polytechnic;
- Law, Economics and Finance;
- Informatics, Electronics and Computer Technology;
- Design;
- Physics and Mathematics;
- Chemistry and Biology;
- Social Work, Service and Tourism.

## ACCOMMODATION

## ABOUT THE UNIVERSITY

The Peoples' Friendship University of Russia (RUDN University) is a higher educational and research institution located in Moscow, the capital city of Russia. The University was established in 1960, and in July 1991, upon the decision of the Government of the Russian Federation, the University received the status of the Peoples' Friendship University of Russia (RUDN). Today Peoples' Friendship University of Russia is one of the leading state higher educational institutions in Russia. It is the only university in the world which unites students from 140 countries every year.

The University has a multi-profile structure of faculties and majors typical for classical world universities. More than 77,000 graduates of the University work in 170 countries, among them are more than 5,500 holders of PhD and Doctorate degrees. The University trains specialists in 62 majors and fields of study. More than 29,000 graduate and postgraduate students from 140 countries are currently studying at the university. RUDN is one of the largest Russian publishers of scientific, educational, methodological literature, peer-reviewed journals, materials for students.

**>3,600**  
professors

**>29,000**  
students

According to the Russian Chamber of Books the RUDN is considered to be one of the top ten among more than 600 Russian universities which have their own publishing houses and printing houses, in terms of the number of annual items and the total circulation of publications.

Many foreign and Russian graduates of Peoples' Friendship University are political and public figures, outstanding scholars and scientists. Among them are presidents of Namibia, Angola, Sri Lanka, South African Republic, Gabon and Nigeria; prime-ministers of Bangladesh and Kazakhstan; UN Chief Executive Officer on Education, Culture and Science and Director of CEPES.

Being one of the most prestigious universities in Russia, Peoples' Friendship University of Russia never leaves the top 20 according to national ratings. The university is in the top 5% of the most prestigious educational institutions on the planet.

## WHY RUDN:

RUDN University offers any specialization (technical, scientific, medical, economic, humanitarian one).

Training and professionally oriented practice in the leading Russian and international companies.

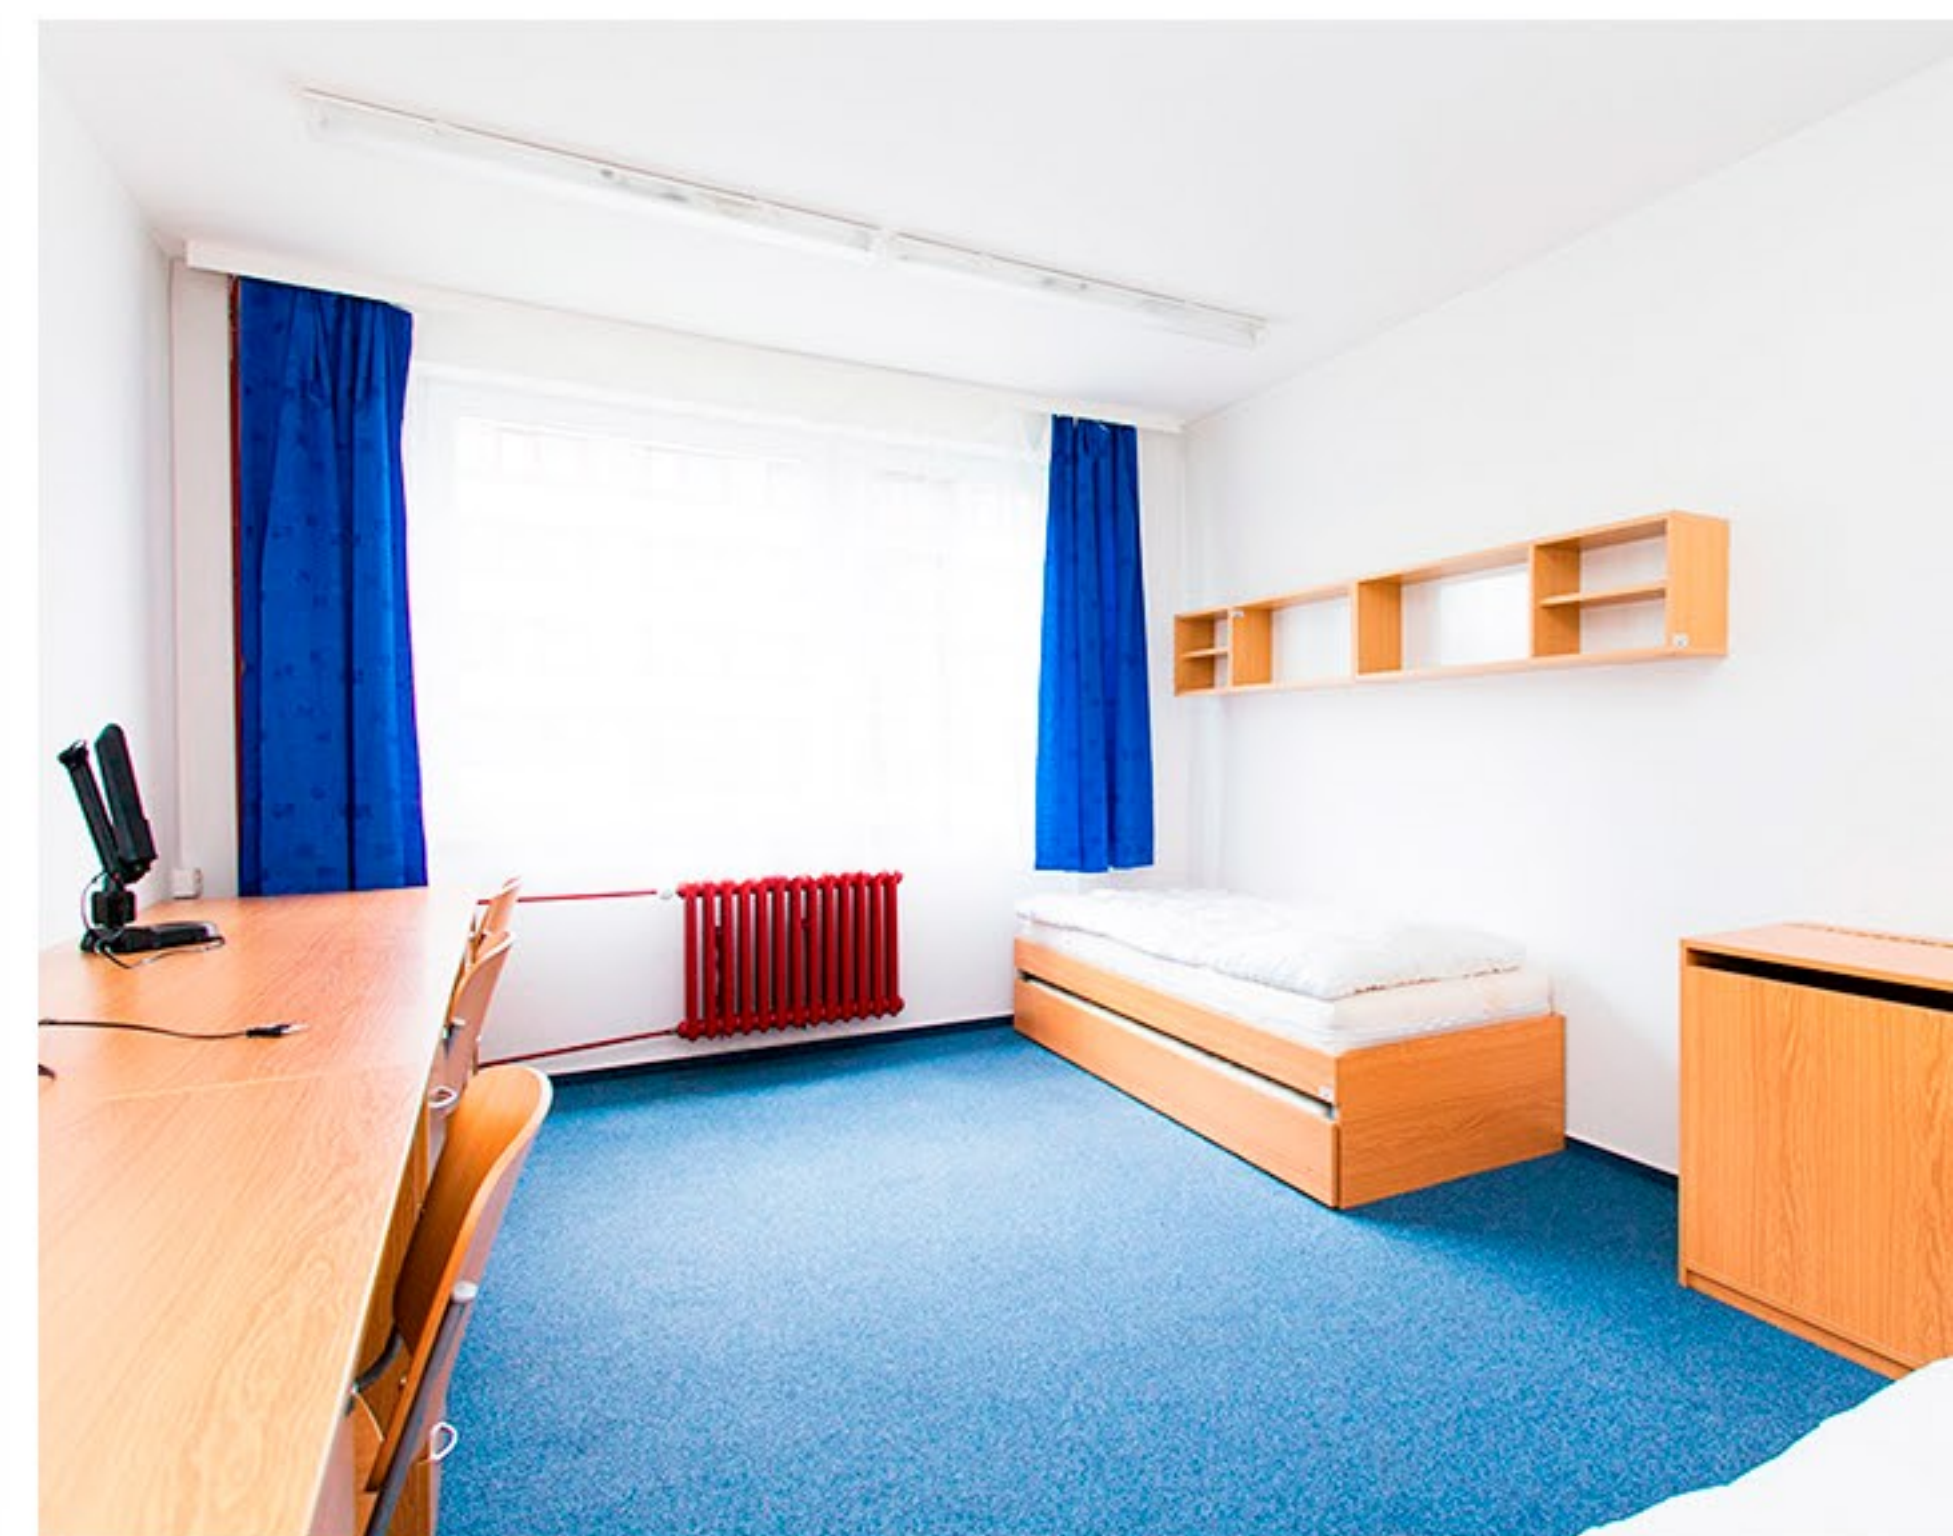

RUDN has everything for mastering science by doing research and conducting various experiments.

## FACULTIES

## ABOUT THE UNIVERSITY

Kazan State Medical University (also known as KSMU) is a multi-leveled state institution of higher education located in the city of Kazan. It meets both personal and social needs in acquiring education in medical, biomedical and clinical sciences, as well as broadening scientific knowledge of medical sciences. KSMU functions on the basis of self-governance and belongs to the system of Higher Education and Scientific Research of the Ministry of Health of Russia.

The complex educational system in the framework of the university provides the continuous higher education of medicine. Founded in 1814, KSMU was the second university to be founded in Kazan and the third medical university in Russia. According to the Academic Ranking of World Universities-European Standard ARES-2014 published by European Scientific-Industrial Chamber, KSMU took the third place among the medical universities in Russia.

**>2300**  
professors

**>21,500**  
students

The curriculum for General Medicine, Dentistry and Pharmacy are righteously extensive and updated on a regular basis. During the period of training, students are taught theoretical (from 1st to 3rd year) and clinical fundamentals (from 4th to 6th year)

The teaching process includes approach, beginning with lectures proceeded by laboratory and practical work at hospitals along with in depth examination of patients, clinical duties etc. This complex educational system in the framework of the university provides the continuous european higher education of medicine.

*Today Kazan State Medical University is the leader among Russian medical schools in the number of students. Kazan State Medical University has created all necessary conditions for the development, training and accommodation of students.*

## WHY KSMU:

It is recognized by the WHO, listed in the World Directory of Medical Schools (AVICENNA Directory for Medicine).

KSMU is the third oldest Medical University in Russia after Moscow and St. Petersburg.

Around 700 students from more than 57 countries around the world study here and half of them study in English.

## FACULTIES

- Faculty of General Medicine;
- Faculty of Pharmacy;
- Faculty of Dentistry;
- Faculty of Biology;
- Faculty of Pediatrics;
- Faculty of Preventive Medicine;
- Faculty of Nursing;
- Faculty of Advanced Training;
- Faculty of Professional Retraining of Specialists.

## ACCOMMODATION

There are six hostels for students which are located close to the University building. All international students are welcome to stay within a hostel. There are various kinds of rooms which vary in size, with two to three students sharing one room. The rooms are fully furnished and well-heated, have the Internet access, a television and other necessities. Bathrooms and kitchens are provided on the sharing basis. There are study and leisure areas where students can socialize and make new friends.

## KAZAN CITY

Kazan is the capital and largest city of the Republic of Tatarstan, Russia. It is a city with a long history located about 820 km east of Moscow on the left bank of the Volga River. This is one of the largest economic, scientific, educational, religious, cultural, and sports centers of Russia. With a population of about 1.3 million (2011 census), a rich history, deep culture and strong economic influence, Kazan is one of the most visited and most important cities in Russia.

# STUDENT LIFE IN RUSSIA

The adaptation of foreign students to the new environment should be flexible and gradual. Students are therefore to consider a certain level of base preparation like gaining a certain level of Russian language, culture and mentality, as well as having an ability for individual and joint training. One of the key aspects of students' adaptation to training is an understanding of the new system of education.

The educational systems of the USA, European countries and Russia differ in some areas. One of the most important psychological aspects is that students address the teachers by their first and patronymic names. Studying Russian language does not cause any difficulties for students and is carried out at a very high level. International students have an opportunity to practice the language with locals every day, which makes the process of mastering it much faster.

**“ The Faculty for International Students of each university actively participates in the activities of the International Students Club and cooperates with various organizations and governing bodies in the framework of international student support programs. Those foreign students who are interested in learning more about the country and its people, customs and life are welcome to visit museums, exhibitions, concerts, drama theatres, meetings and evenings of international friendship with students of high schools, colleges and universities. Having overcome the adaptation period, students are able to truly appreciate many aspects of living and studying in Russia.”**

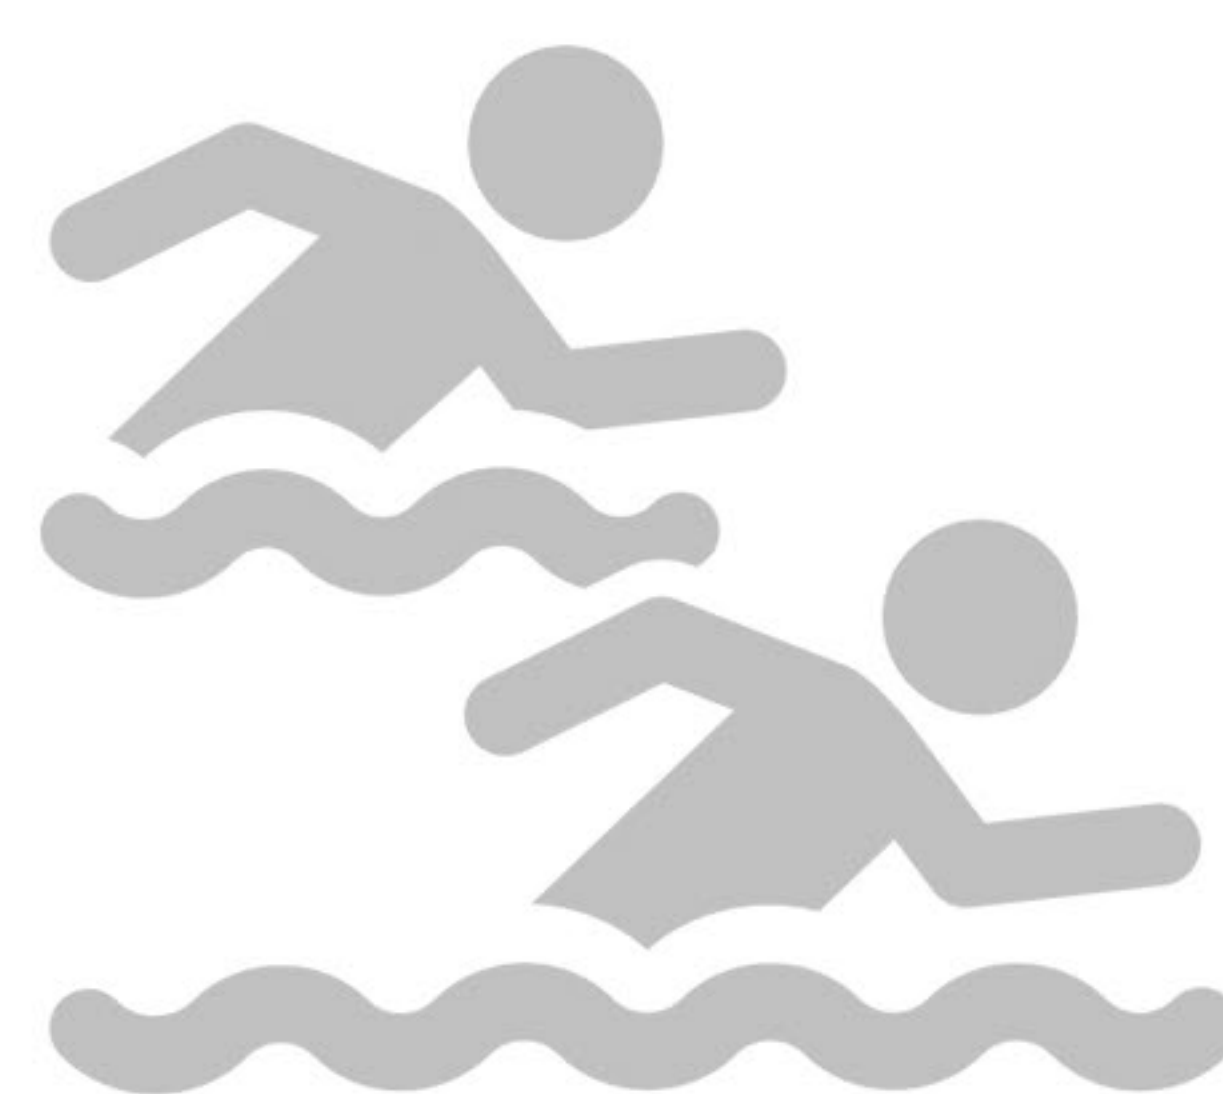

## STUDENT LIFE IN RUSSIA

Foreign students hardly experience any misunderstandings with teachers or local students, as it is said that the most ideal “accelerator” of adaptation is the creation of an “atmosphere where each student feels at ease”. Russians help newcomers by guiding foreign students through university facilities and accompanying on walks, holidays and excursions. Moreover, it helps people of different cultures and nationalities learn more about each other.

International students take an active part in university life: together with Russian students they perform in concerts, organize student parties, participate in contests, festivals and sport events, and they act as representatives of the Student Council of the universities. All of this gives international students a great opportunity to make new friends and provides them with the skills necessary for their future professional career in the ever-evolving world.
